SMSD SPOTLIGHT

WWW.STAFFORD.MSD.ESC4.NET

FROM THE SUPERINTENDENT

I trust this edition of the SMSD Spotlight finds every Stafford citizen successfully recovering from any damages endured as a result of Hurricane Ike. As we all know, a storm of this magnitude will completely disrupt the routines of our everyday life and test our patience as the slow process of recovery takes place. SMSD facilities, like many of your homes, received significant roof damage during the storm and, as a result, several campuses received water damage to instructional corridors and classrooms.

Thanks to the timely response of several employees from our maintenance and food service departments, we were able to minimize the damage to our facilities and our child nutrition inventory. We experienced damage to the Primary, Intermediate and High Schools' roofs, which caused extensive water damage to walls and flooring; Performance Gymnasium floor; softball field lights; a football field goal post; and multiple minor issues throughout the facilities. At this time, the estimated loss to SMSD totals \$727,000 and we are communicating with our insurance provider and FEMA for the coverage we are entitled.

On a more positive note that has been understandably lost in recent discussion, SMSD had a very smooth and successful opening of the 2008-09 school year. While there are always issues surrounding the beginning of a school year, I am pleased to note that the issues SMSD experienced were addressed and resolved in a very timely manner. In a development that benefits SMSD financially, student enrollment increased by 9% since the last day of school in May 2008. While some of this growth is attributable to the district's Tuition Free Enrollment Program (LOE) for non-Stafford residents, the majority is due to an increase in Stafford's population. At this time, the total student enrollment for SMSD is 3,051.

As you will have learned by now, all SMSD campuses and the district have met the standards of No Child Left Behind's (NCLB) Adequate Yearly Progress (AYP). Based on all analyzed data and assessments, SMSD students and staff are meeting and exceeding NCLB's increased standards each year. This is noteworthy because more and more campuses and districts are not meeting AYP due to the yearly increased standards. I applaud our teachers, support staff, and students for rising to the ever-increasing challenges of state and federal accountability. Please know your school district is expecting more and more of each student every day to be prepared for the future they choose to seek, college or the workforce.

As always, I want to thank each citizen of Stafford for supporting SMSD students and staff as we all participate in the most important segment of our society, educating the youth of our community.

H.D. CHAMBERS

Preparing for the 81st Legislative Session

In preparation for the 2009 81st Legislative Session, the SMSD Board of Trustees have formally adopted a 2009 Legislative Agenda that includes key legislature priorities important to SMSD as well as public education in Texas. Of primary concern to SMSD and other Chapter 41 (Robin Hood) school districts, districts that are considered property-wealthy, is state funding. Another concern, not only in the State of Texas but also other Texas public schools, is the accountability ratings under the No Child Left Behind and how those ratings should be consistent with state-mandated assessments. Currently districts are held accountable by two standards that are calculated differently, leading to sometimes conflicting and confusing results.

For the complete SMSD Legislative Agenda, please see below.

Drop-Out Recovery Walk

As part of the greater Houston area drop-out recovery, SMSD put 34 volunteers into 10 teams to visit 39 identified students to encourage them to complete their high school education. Volunteers represented Achieve Fort Bend, Fort Bend ISD, Stafford Rise, Fort Bend Chamber of Commerce, Greater Fort Bend EDC, Fort Bend Sheriff's Department, Stafford Adult Basic Education, and Stafford MSD Education Foundation. As a result of being given an individualized plan for graduation, resources, and attendance law information along with encouragement from community members, students have reenrolled at Stafford High School.

Back: Texas Retired Teachers Assoc. Pat Toland, Councilman Cecil Willis, SMSD Education Foundation Member Fred Hennes. Front: Stafford Intermediate teacher Deborah Ijesuyowwe and Foundation President Linda Hennes

STAFFORD MUNICIPAL SCHOOL DISTRICT LEGISLATIVE AGENDA 2009 - 81st Legislature

- I. Financial
 - A. To seek and support legislation reducing or eliminating portions of the required Chapter 41 (Robin Hood) payments.
 - B. To seek and support legislation that repeals Texas Education Code Section 42.103(e) and allows all mid-size school districts to benefit from the mid-size adjustment in the funding formula immediately.
 - C. To seek and support legislation that allows property value growth to remain in the funding formula without reducing state aid or increasing recapture payments for all districts.
 - D. To seek and support legislation that adjusts the funding formula's basic allotment so that state and/or local funding is able to generate revenues that exceed the hold harmless levels as required by House Bill 1 and be flexible enough to be adjusted for inflationary increases without legislation.
 - E. To seek and support legislation that updates the basic transportation allotment to current market demands and includes all Chapter 41 school districts.
- II. Student Achievement
 - A. To seek and support legislation that allows State and Federal accountability ratings to be consistent with each other and eliminate all conflicts.
 - B. To seek and support adjustments to the state accountability system that allow for:
 - Challenging within content-specific assessments
 - Easily understood by educational community and general public
 - Rewarding schools and districts for student and campus improvement from year to year (growth model)
 - Preventing campuses or districts from being considered low-performing based on a few students
 - Not being identified in accountability ratings based on the performance of its weakest division
 - Basing assessment on content area covered in current year instruction (TEKS)
 - Providing all students who did not meet the minimum standards on their first administration an opportunity to participate in a second assessment administration of any TAKS assessment. This is consistent with the what students in grades 3, 5 and 8 (Student Success Initiative) are allowed to do. **A campus or district's accountability ratings would be determined after including each student's second assessment scores.**
 - C. Modify the Texas Education Code and Texas Administrative Code in order to provide additional instructional flexibility related to curriculum and graduation requirements; and to provide supportive funding sources related to the development of a skilled workforce including modifications to school finance rules allowing a portion of the funds recaptured by the State from school districts designated as Chapter 41 school districts for these purposes.

2008-09 District Calendar Revised

Due to unforeseen disruption of instructional days due to Hurricane Ike, SMSD has amended the 2008-09 school calendar. The Texas Education Agency is allowing districts affected by school closures to apply for waivers for up to 10 lost instructional days. SMSD has applied for 9 lost instructional days and has modified the 2008-09 calendar to help make up for as much lost time as possible. January 29, February 26, and April 2, 2009, were originally half days for students. These days are now full instructional days. Principals and teachers have identified strategies to assist in making up time throughout the year as well. A current district calendar is available on the District's website and at each campus office.

SHS Academic Semi-Finalists

Aditya Kumar has been named a semifinalist in the 2009 National Merit Scholarship competition, an academic competition for recognition and scholarships based on results of the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT). The PSAT/NMSQT serves as an initial screen of approximately 1.4 million entrants each year. To become a finalist, a semifinalist must have an outstanding academic record throughout high school, be endorsed and recommended by the school principal, and earn SAT scores that confirm the student's earlier qualifying test performance. Mr. Kumar is one of approximately 16,000 academically talented high school seniors who has an opportunity to continue in the competition for some 8,200 Merit Scholarship awards, worth \$35,000,000, that will be offered in spring 2009.

Aditya Kumar

Khia Thompson has been selected as a semifinalist in the 2009 National Achievement Scholarship competition. She is among 600 students chosen nationally from 150,000 juniors who entered the competition. Ms. Thompson will continue to compete for approximately 800 scholarships worth over \$2,600,000 that will be awarded in the spring of 2009. To advance to the finalist level, she and a high school official will have to complete a detailed scholarship application which discusses school and community involvement, demonstrated leadership and educational goals. The National Achievement Program, in its 45th year, is conducted by the National Merit Scholarship Corporation and was created to recognize academically promising black students throughout the nation.

Khia Thompson

HS Teacher Peasley Chosen by Wal-Mart
 Stafford Wal-Mart has chosen Jilla Peasley, Stafford High School Science teacher, as their 2008 Teacher of the Year. At the SHS Homecoming Pep-Rally, Wal-Mart representatives presented Peasley with a \$100 gift card and the school a check for \$1000.

Wal-Mart's Gwen Williams, Matt Ware, Melanie Warren, Nancy Durling, Tony Pena, SHS Principal Rebecca Benedict, Jilla Peasley

ES Teacher Calbert Chosen by OfficeMax

Stafford OfficeMax surprised 2nd Grade Teacher Terri Calbert with a box filled with school supplies for her students, a new chair, digital camera, and gift card. Calbert was nominated by a co-worker and OfficeMax selected her in their Adopt-a-Classroom program.

SMSD Meets AYP Standards

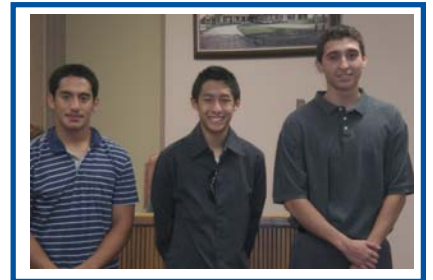

The Texas Education Agency released the 2008 Adequate Yearly Progress (AYP) results and Stafford Municipal School District has met the federal standards. SMSD's Assistant Superintendent for Curriculum, Instruction, and Assessment, Marva Rasberry, has said regarding the District and each campus having met the ever-increasing AYP standards, "This is quite an accomplishment considering the state-wide results reveal 75% of the campuses across the State 'Met AYP' as compared to 80% the prior year. The report also shows only 66% of the state-wide districts 'Met AYP', as compared to 87% the prior year." she continued.

AYP is one of the cornerstones of the Federal Elementary and Secondary Education Act (EASA) signed into law January 2002, as the No Child Left Behind (NCLB) Act. One of the elements of NCLB requires states to develop a baseline for students to achieve proficiency in the areas of Reading/English Language Arts (ELA) and Math. States must gradually raise the bar every year towards achieving 100% proficiency in each subject area by the 2013-14 school year. "I am very encouraged and pleased that the SMSD teaching and support staff continues to improve and increase the quality of education for every student," said Superintendent H.D. Chambers. "These results provide evidence that our teachers continue to deliver instruction at a high level and our students are responding. Our campuses should be proud that in a time where academic expectations are increasing, SMSD students are demonstrating the capability to meet and exceed those expectations."

The Reading/ELA proficiency levels are ascertained through state assessment results in Texas Assessment of Knowledge and Skills (TAKS), TAKS-Modified, TAKS-Alt, and Texas English Language Proficiency Assessment (TELPAS). The Math proficiency levels are determined through state assessment results in TAKS, TAKS Modified, TAKS-Alternative, and TAKS-Accommodated, and Linguistically Accommodated Tests (LAT). In addition to measuring academic achievement in Reading, ELA and Math, NCLB requires an additional student performance indicator be measured. For high school students, the on-time graduation rate is utilized. These AYP goals must be met by both each campus and district across the state, as well as by disaggregated subgroups. These subgroups are specified by law and include, race/ethnicity (African American, Anglo, Hispanic), students with disabilities, Limited English Proficient students, and economically disadvantaged students.

NASA High School Aerospace Scholars

At their September meeting, the SMSD Board of Trustees recognized six Stafford High School students who participated in NASA's High School Aerospace Scholars (HAS) program during the spring and summer of 2008. SHS students who completed the 2008 summer program are Jerry Garza, Aditya Kumar, Andrea Lapotairte, Stanlye Lie, Khyll Pena, and Hanna Tobitt.

Khyll Pena, Stanlye Lie, Jerry Garza

HAS is an interactive, on-line learning experience, highlighted by a six-day internship where selected students are encouraged to study math, science, engineering, or computer science by interacting with engineers at the NASA Johnson Space Center (JSC). Students from across the state of Texas were selected to participate by their state legislators through a competitive process. During the school year, the scholars completed 10 web-based lessons and activities including reading on-line curriculum, writing essays, designing upgrades to be used on the Shuttle and International Space Station, solving math problems, and taking on-line quizzes. Students were provided transportation, housing, and meals during their stay. The summer session included a team project in Mars exploration; tours of JSC facilities; mentoring by NASA engineers; hands-on engineering activities; and briefings by astronauts, engineers, and NASA experts.

Students completing the summer program may receive science elective credit towards graduation based on the Scientific Research and Design course developed by the Texas Education Agency.

Additional information concerning the program can be found at: <http://aerospacescholars.jsc.nasa.gov>.

Stafford MSD Education Foundation

5K Gobble Hobble Fun Run Walk or Push

The first 5K Gobble Hobble Fun Run was herald a success for the Education Foundation's first attempt to host a 5K event. With over 200 registrants, the Foundation boosted its coffers for student and staff scholarships. The City of Stafford sponsored the event by providing safe streets and emergency personnel. Also sponsoring the Gobble Hobble were Third Coast Produce, Frito-Lay, Mrs. Baird's, Borden, Barnes and Noble, Sweet Tomato's, Finish Line Sports, and Wal-Mart. Jesus Sifuentes, a Stafford High School alumni, was the overall winner with a time of 23:32. First place winners by category were:

Jesus Sifuentes

Under 14 - Girl	Lauren Schomburg	48:44
Under 14 - Boy	Issac Noon	NA
15-19 - Men	Danny Mazoch	29:31
20-29 - Women	Kristi Beachum	25:38
20-29 - Men	Jesus Sifuentes	23:32
30-39 - Women	Suzanne Weirick	30:10
30-39 - Men	Jerry Koerner	24:46
40-49 - Women	Nancy Hank	25:51
40-49 - Men	Carl Jones	33:33
50-59 - Men	Earl Barrier	29:51
60-69 - Men	Robert Gulliver	47:49

Second Place winners included (20-29) Vanessa Tijerina and Adrian Castillo; (30-39) Letty Guzman and Andrew Copulsky; (40-49) Leah Chambers; (50-59) Michael Kearns; and (60-69) Mayor Leonard Scarcella.

Chase Thomson

Not all participants walked or ran. Some of the younger Gobble Hobbles enjoyed the event from strollers and wagons.

Foundation Open House - November 18
On November 18, 2008, the Stafford MSD Education Foundation will welcome the community to an Open House at 7:00pm at the SMSD Administration Board Room. For more information, call 281-261-9219 or

email foundation@stafford.msdc.edu. The public is invited to come see what the Foundation is doing for the schools!

2009 Legislative Summit

SMSD Co-Hosted

Approximately 700 people gathered at Aldine ISD's M.O. Campbell Center October 18, 2008, to listen to state-elected officials' positions on educational issues at a Legislative Summit hosted by SMSD and other local districts. The Legislative Summit gave the districts' community members an opportunity to meet their representatives and senators and hear their views on school funding, taxpayer reform, and the business franchise tax.

Senator Dan Patrick, Representatives Rob Eissler, and Scott Hochberg addressed the audience with their candid views on the best approach to making education available and affordable to all children in Texas and the various taxes that should be put into play to support that. Senator Patrick stated his support of a sales tax approach to support an equal

SHS Hosted Veterans

November 11, 2008

The Stafford High School Jr. ROTC chapter hosted several local active-duty and retired veterans for their service to our country. Veterans who were honored represented Army, Navy, Air Force, and Marines and had served conflicts from World War II. Following a brief ceremony and lunch, veterans led by retired Marine Mike Castle

released 400 orange balloons in recognition of servicemen and women affected by Agent Orange use in Viet Nam.

SMSD's Kathy Ratcliff, Councilman Jeff and Debbie Smith

Trustees Guerra, Cropper, and Hoelscher

Mayor Leonard Scarcella

2nd Annual Teacher Appreciation Gala
September 6, 2008
Stafford Centre

Thank you
City of
Stafford

SMSD employees and guests enjoyed a catered dinner at the 2nd Annual Teacher Appreciation Gala sponsored by the City of Stafford. The event held at the Stafford Centre recognized SMSD's Teachers of the Year and honored all SMSD employees. Mayor Leonard Scarcella welcomed the school district and shared his and City Council's appreciation to the contributions of the school district.

SMSD's Shaunte' Norris and Ladricca Price

High School Uniform Grade Point Average (UGPA)

Impacts Our 8th Graders

As a result of House Bill 3851 from the 2007 Legislative Session, The Texas Higher Education Coordinating Board (THECB) has published new draft rules on a uniform method of calculating high school students' GPA's for admission to institutes of higher education.

Currently Texas schools have the flexibility to determine which courses will be included in high school GPA as well as the type of GPA scale to be used. Some districts allow fine arts classes to be used in calculating while others do not; some districts use a 5-point GPA and others use a 4-point. HB 3851's intent was for THECB to develop a uniform GPA methodology for all school districts in university admission decisions, including the top 10% and top 25% admissions. The currently proposed rules, if approved, will impact our current 8th grade students, the Class of 2013, during their next four years' preparation for college acceptance.

Some of the significant points of the current draft rules would:

- require all GPA's to be on a 4-point scale;
- include specific academic courses whether taken in regular semester classes or summer school classes*;
- not include grades earned in nonacademic courses (band, orchestra, PE) or local credit courses;
- provide additional 1.0 weight for Advanced Placement, dual credit, and International Baccalaureate courses;
- provide no additional weight for Pre-AP, Career and Technology, or local credit courses; and
- require GPA's be rounded up no more than three decimals.

At press time, the THECB had postponed until January their decision on accepting the draft rules and determining the methodology of calculating a UGPA for Texas.

* For a complete list of courses, contact the Superintendent's office, 281-261-9202

education. Citing the importance of education, he added, "if Texas is not strong, the nation is not strong". Representative Eissler presented his support in focusing on teacher professional development, TAKS elimination, and Pre-Kindergarten saying "it's all career readiness". Representative Hochberg shared that Texas has a net export of 5000 college students who typically settle where they attended college. His approach to offering those students top tier colleges in Texas is to identify workforce needs with Texas employers, and then address those needs with Texas' higher educators, followed by K-12 educators.

Wendell Edwards, a local television reporter, posed pre-prepared questions to a panel comprised of Senator Patrick and Representatives Hochberg and Sylvester Turner who were each given time to answer the questions.
